WHEAT PANIC IN THE ST. LOUIS MARKET

The Mexican Central—Washington News—Chicago Cullings—Rain Reports —Tucson Topics.

Associated Press Dispatches.]

CITY OF MEXICO, Feb. 10.—The Mexican Central is completed to Queretaro, 150 miles north. The government engineers are out examining the new division, which will be open for business on the 15th. The first installment of $250,000, subvention certificates, have been delivered for the company. One million more will be handed over next week. Hereafter six per cent. of the duties at all ports must be paid with certificates.

WASHINGTON.

The Hawiian Treaty—The Next Consul to Vera Cruz.

WASHINGTON, Feb. 10.—The New York Graphic's correspondent says no effort is being made to effect a termination of the treaty with the Kingdom of Hawaii. In spite of the resolution passed in New York endorsing the movement there has been developed no element in Congress, that is known so far, which favors such action on the part of this Government except from Louisiana. The question of sugar production being a vital and leading industry of the State, the Congressmen from that part of the country are unanimous in its favor, and Gibson has a measure looking to the accomplishment of the abrogation of the treaty.

PETITION FOR ORDWAY'S REMOVAL.

The delegation from Southeastern Dakota this morning urged the President to remove Gov. Ordway.

KNOCKED DOWN.

Senator Lamar was knocked down last evening while crossing a street, by a pair of carelessly driven horses.

ANOTHER AGREEMENT.

The President this morning agreed positively to appoint Bruns Tzchuck, of Nebraska, Consul to Vera Cruz. Tzchuck has been urged by both the Nebraska Senators but opposed by Representative Valentine, a stalwart. The Senators think that this indicates that the President does not intend to favor stalwarts more than others.

THE RAIN RECORD.

The Northern Portion of the State Favored—Coming This Way.

SAN FRANCISCO, Feb. 10.—It rained heavily this morning with the wind southeasterly. Subsequently the wind hauled to the west and northwest, where it remains. The rain ceased and the barometer jumped up; but it is now falling again.

PARTIAL.

A heavy rainstorm prevailed all over the northern portion of the State this morning, but not extending to the San Joaquin Valley.

WORKING SOUTH.

The rain at 3 P. M. had reached as far south as San Benito and Merced counties, with southeast wind and a falling barometer.

WEATHER AT SAN DIEGO.

SAN DIEGO, Feb. 10.—It has been cloudy all day, wind southerly and light showers this evening. There is every indication of a heavy rain.

CHICAGO CHIPS.

The St. Louis and San Francisco Railroad Company.

CHICAGO, Feb. 10.—A joint circular has been issued by the St. Louis and San Francisco Railroad and the Atchison, Topeka and Santa Fe Railroad Companies, calling attention to the opening of the route via Halsted to Western Kansas, Colorado, New Mexico and California, and requesting the other roads to represent the new lines in their coupon ticket service.

HURRAH FOR THE COLORED MAN.

The Times' special says that a colored member of the Virginia Legislature has introduced a bill designed to prevent white men from having mulatto mistresses, the penalty being the recognition of the children as heirs at law.

A Decision.

MARTINEZ, Cal., Feb. 10.—Judge Gregory, of Solano, sitting for Judge Brown, this morning decided, in the case of Noone vs. Boone, to the effect that the Central Pacific Railroad patent took effect at the time of the location and filing of the map in the office of the U. S. Land Commissioner at Washington, and covered only the lands then public and not reserved or in litigation. The lands in question were within the railroad limit but part of the San Ramon Sobrante grant. The legal part of the case was submitted *pro forma* to the jury, which, under the Court's instruction, found a verdict for the defendant.

A House Divided Against Itself.

SALT LAKE, Feb. 10.—At Uintah, last night, at a meeting of liberal citizens brought up in the Mormon Church, resolutions were adopted strongly denouncing polygamy and favoring the annuling of the organic Act of the Territory.

Let Them Come to a Land of Plenty.

NEW ORLEANS, Feb. 10.—Measures are being taken to aid the people of Ouachita, Richland, Franklin, Caldwell, Winn, Grant, Jackson and Concordia parishes, reported to be in a suffering condition from the failure of crops, and some are practically starving.

TUCSON NEWS.

The Railroad Running a Line From Tucson to the Gulf of California.

Associated Press Dispatches.]

TUCSON, Feb 10.—Col. Scott, with a corps of assistants, leaves here tomorrow morning to run a preliminary survey of the Tucson and Gulf of California Railroad in the interest of the Southern Pacific Railroad. The people of Tucson are jubilant over the fact the Pacific road builders are taking hold of the project. The distance from Tucson to Lobos is about 175 miles, and the route is skirted on both sides with a series of rich mining districts, which are now developing some very rich mines.

A GUANO ISLAND.

Prof. Salaza, who has just returned from Sonora, says that a guano island has been discovered in the Gulf of California, twenty-eight miles southwest of Port Lobos. He visited the island last week and says the whole face of the island is literally covered with birds' nests with eggs of every size and color. The deposit of guano, he says, is very large. The island contains about sixteen square miles.

A GOOD RUN.

The Cabuca mill, of Sonora, shipped $10,000, the result of last month's run.

CRIMES AND CASUALTIES.

A Man Shoots a Girl that Refuses to Marry Him, then Kills Himself.

BANK BOOK-KEEPER'S EMBEZZLEMENT.

The News Editor of the "National Republican" Attacked—A Soldier's Deed—A School Boy Killed by His Comrade.

Associated Press Dispatches.]

CHICAGO, Ill., Feb. 10.—This afternoon at the house of James Saretman, at 1543 Michigan avenue, George Robinson, or English George, the driver of on ice wagon, shot a servant girl named Mary Bacon, inflicting a mortal wound, and then opening his mouth fired a bullet into his brain. He instantly fell dead at her feet. The girl had refused to marry Robinson, who is apparently forty years of age but is not well known here. Mary was a girl of excellent character. She is not expected to live more than a few hours.

A FRACAS IN A PRINT SHOP.

WASHINGTON, Feb. 10.—The National Republican has recently been publishing articles reflecting on A. M. Soteldo, Clerk of the Senate Committee on Railroads. To-night Soteldo and his brother Charles entered the editorial room of the Republican, where Clarence M. Barton, news editor, and Frank Conger, business manager, were sitting. Soteldo submitted a document to Barton, who said that before acting on it he must consult Mr. Gorham, the chief editor. Conger says that as Barton returned the paper and rose from his chair Soteldo struck him. A scuffle then ensued, the lamp was upset and Conger seized it and ran out of the room. Several pistol shots were heard. The compositors rushed to the scene and found Barton struggling with Charles Soteldo. The latter was secured and put under arrest. Barton was found to be shot in the neck and left breast, but will proably recover. A. M. Soteldo was shot in the back of the neck, his spinal column shattered, and his early death is inevitable. Charles Soteldo says that Barton commenced the row by drawing a pistol and firing; that his brother had nothing to do with the shooting; that he (Charles) drew his pistol, fired one shot and clinched Barton, and that during the struggle Barton's pistol went off and he thinks wounded himself.

MRS. SOTELDO'S STATEMENT.

Mrs. Soteldo, wife of the wounded man, who is here, says that her husband realizes his very dangerous condition and that there was little ground for hope. He told her this morning that Barton fired the first shot. Barton admits this but says he shot low and missed, but is positive that Soteldo's brother shot him. Barton will soon recover. Three men state that they heard Soteldo threaten yesterday to kill Barton.

A BUSTED BUST.

GALVESTON, Tex., Feb. 10.—Sergeant Bust, of the Tenth Cavalry, being reprimanded and ordered to the guard house, blew his head off with his musket.

A SCHOOLBOY'S CRIME.

KEOKUK, Ia., Feb. 10.—A quarrel between two schoolboys at Unionville resulted in the death of one of them, A. F. Graham, who was struck with a bullet and killed by C. Hopkins. Graham was 16, Hopkins 12.

CRIME INCREASING.

LYNCHBURG, Feb. 10.—Lewis Powell, a white man, has been sentenced to receive 156 lashes on the bare back, on two counts for housebreaking and robbery. More crimes have been committed since the post was established than ever before.

PRESCOTT HAS ANOTHER NECKTIE PARTY.

PRESCOTT, A. T., Feb. 10.—Henry H. Hall was hung here to-day for the murder of a man named Bishop, at Flagstaff, on the A. and P. R. R. September last. Owing to the rumor of an attempted rescue twenty additional deputies were sworn in and armed by Sheriff Walker, but no attempt at a rescue was made. The prisoner met his fate apparently with indifference, making a short statement to the reporters on the scaffold. The drop fell at about 11:50 A. M., Hall dying without a struggle. In fifteen minutes the body was cut down and placed in a coffin. A large number of people were in the streets, but only a limited number were admitted to view the execution.

CRIME OF A QUARTERMASTER'S CLERK.

SAN FRANCISCO, Feb. 10.—John E. Brodhead, Chief Clerk of the Quartermaster's Department of the Military Division of the Pacific, was arrested for raising a check from four dollars and a half to four thousand six hundred dollars and fifty cents. The check was drawn in favor of H. M. Black or bearer, for wagon tools furnished the government, and after passing through the hands of the firm's brokers was paid at the Sub-Treasury. The transaction was discovered by Major Batchelder, Chief Quartermaster, and Brodhead confessed his guilt, attributing the act to mining stock speculations. He was held in the sum of ten thousand dollars bail by the U. S. Commissioner to-day, and sent to jail in default of bail. Brodhead confessed to having previously stolen twenty-two hundred dollars.

TOOK IT OUT MUZZLE FIRST.

SAN BERNARDINO, Feb. 10.—John Jacob Andreson aged 35, while but shooting, yesterday, accidentally shot himself by taking his gun out of the wagon muzzle first, and died in about two hours. He is an old resident and is a cousin of John Andreson, of this place.

A BOOKKEEPER'S CRIME.

ST. PAUL, Feb. 10.—D. W. Vanderhoef, first bookkeeper of the First National Bank, of this city, was arrested by the United States Marshall to-night for the embezzlement of an amount variously estimated from $20,000 to $30,000. He has had charge of the books for many years and has systematically manipulated the accounts to cover his stealings. It is thought the money was absorbed in dissipation and grain speculation, in which he was very successful until he was caught in a recent bear movement in wheat.

The Lime-Kiln Club on Cranks.

Detroit Free Press,

Colonel Ebenezer Canister offered the following single-barreled resolution:

"Resolved, Dat dis Club has no sympathy wid cranks, and dat it am de sense ob dis Club dat more hangism would result in less crankism."

The resolution was passed by an unanimous vote, and Brother Gardiner added:

"I feel dat way myself. De man who can pay out an' receive money, trabble around de country, do business an' keep out'n de way of butcher carts musn't shoot my ole woman and den plead hereditary, heretofore, hereafter or any odder sort ob insanity. De crank who can't resist de temptation not to steal mus' keep out o' my tater patch, or take de chances o' my puttin' a handful o' shot into his corpus. De crank who am not morally responsible for his utterances will feel de weight o' my fists de fust time he calls me a liar. De crank who am not financially responsible wants to keep right away from me all de week frew. De crank who am impelled by Deity, debbil or any other power to do me bodily injury, had better be sartin of his aim, for if he misses I'll light down on him like a ton of de reddest bricks he ever saw. I doan go a cent on insanity outside of a lunatic asylum. If a man am luny put him among de lunatics. De fact dat he am not put dar am reason for holding him legally responsible fur ebery act.

W. R. Winans, of Baltimore, who is making England his home, has built a monster "cigar ship" on the Clyde at a cost of about $1,000,000. He thinks she will be able to cross the Atlantic in five days.

The United States begins the new year with a public debt of $1,765,491,717, or about $1,000,000 less than the maximum amount reached by the debt in 1865.

THE LOS ANGELES RIVER.

Our river is unlike the "father of waters," in that it is not the father of many waters, and the argosies of Commerce do not ruffle its bosom in ascending the tortuous channel nor bear our wealth to other climes in its march to the ocean. Yet still it is a river, and we are enabled to show that it is a right useful one even if too insignificant to be a burden-bearer, or to turn the whirring wheels and spindles of but few manufactories. It should be acknowledged that it is the life of the emporium of Southern California, and we should do it a deserved homage, for should a misfortune befall it to the extent of having its aqueous supply shut off for a year, we could bid farewell to this beauteous home of Angels, and fold our tents and follow the lead of the absquatulating Arab in his silent march away.

Before the white man located here the river was known by its Indian name of "Porciuncula" river. The change of name was a most decided improvement, and if the settlers or mission fathers had done no more than this they would have been entitled to the everlasting gratitude of the past, present and future dwellers upon the banks of the "Rhine" of California. "What's in a name?" Very true, but, bless us, who would go back to the home of his childhood and boast that he lived under the bright skies, and breathed the balmy airs, and planted and delved upon the banks of the "Porciuncula?" How sweetly sang dear old Ben Johnson of his comrade and friend, Shakespeare—

"Sweet swan of Avon, what a sight it was
To see thee in our water!"

But could he have fixed up a rhyme or associated a poetical idea with that unmusical, unpronounceable name the heathenish natives gave our own beautiful streamlet, had Shakespeare first opened his eyes at Boyle Heights or on Fort Hill? We guess not—we know not. Well, when the "Porciuncula" (confound the name) was the "Porciuncula," its course lay along the bluff where is now East Los Angeles and Boyle Heights, but after it had been christened with its present "Christian" name it put on airs, forsook some of its old ways, and ran seaward on the line of the present Alameda street. But in about 1825, like many a convert to Christianity, it fell from grace and got back into its old ways again and stayed there. Some historian avers that prior to the settlement of Los Angeles the river spread over a large portion of the land between us and the sea, forming lakes, ponds and marshes, and giving growth to large areas of willow groves. And there are now those living here who can remember when there were quite extensive forests where is now barrenness. Probably this change is owing to the decrease in the volume of water since it has been so largely used for irrigating. Now, the river, when there is water enough to make the trip, unites with the San Gabriel about seven miles below the city. But it is only during periods of the heaviest rains that the water flows past the city for any considerable distance.

Our river has no head, at least none visible above the surface. The nearest approach to a head is a spring on the ranch of Mr. Garnier, in the San Fernando Valley, from which a very slight overflow trickles along the ground, and after running some miles shows quite a marked increase in volume. And although there are no visible feeders, the quantity of water increases continually until it has reached its maximum at a point some two miles above the city. The river appears to be fed by a seepage from the San Fernando Valley, the greater portion of the surface of which is ordinarily as innocent of moisture as is the great desert of Sahara.

It is known that the San Fernando Mountain, where it is pierced by the long railroad tunnel, is full of water, and some twenty miners' inches has run from the tunnel ever since it was finished. And further on in the Soledad Mountains are large deposits of water, but under the surface. These water supplies are from twelve hundred to twenty-five hundred feet above the level of the city, and are doubtless the sources from which our river is fed, by subterranean passages opening with the San Fernando Valley, and in striking an impervious strata at the foot of the Cahuenga Mountains, is forced to the surface and forms our river, giving us the means of amply irrigating all lands in the city limits. And when intelligent capital shall sink wells of large capacity some eight or ten miles up the river, and pipe the water to us, the volume thereof will be so much increased that the entire land between us and the sea may be irrigated all that is desired for the cultivation of vines, fruits and corn. And when thus properly piped there will be a power at hand for driving all the machinery our wants require, and without interfering with our irrigating supply, as the water would flow directly from mill to orchard or vineyard, and thus do double work.

A GLORIOUS RAIN.

It may be that the rain storm will go by contraries this time as it has done during the winter, but the indications are not very favorable for a long-continued rain. It has rained steadily from 9:30 o'clock up to the hour of going to press, 3 A. M., and in our judgment more than an inch in measurement has fallen. Our statement, of day before yesterday, when we published the annual rainfall for the months of February, that, having had light rains during that month for three years past, we were likely to have a heavy fall during this month seems in a fair way of fullfillment, and now we take fresh courage. All the grain sown will make hay, beyond peradventure, and if another inch is added to that already fallen, many of the tracts will produce grain. We should not be one whit surprised if the year of grace 1882, should yet prove to be one of the most prosperous on record.

RECENTLY a correspondent of he Santa Barbara Press, indorsed by the editor, in making an immoderate assault upon our representative, Mr. Pacheco, asserted that he has no right to occupy his present seat in Congress, because of his non-residence in the Fourth Congressional District; and the editor and his correspondent thereupon call upon the representative to resign. Here is a case where the sage and perpendicular advice of Mr. David Crockett, late of Texas, to-wit: "Be sure you're right, then go ahead," has been rashly disregarded. The plaintiffs in this case are legally and technically in the wrong. The law does not require a representative to live in the district he represents, but only that he shall be a citizen of the State. The propriety of such a state of affairs is another matter.

GEN. WM. G. LEDUC, of Minnesota, late Commissioner of Agriculture, is now visiting in Los Angeles. Gen. LeDuc is an inveterate story-teller as well as an able granger. At the Santa Barbara Hot Springs, the other day, he told the landlady thirteen stories, in quick succession, to induce her to open the innermost recesses of her H(e)art and her larder. The landlady, melting, surrendered at discretion at the end of the thirteenth yarn.

DELIBERATION is a good thing in a public functionary, but an executive officer, or a man wanting to wed, must not hesitate too long, or he is lost. The TIMES respectfully suggests to President Arthur the employment of a trifle more previousness in disposing of waiting and would-be Cabinet officers, as well as country Postmasters. End their agony, Mr. President, and you will write yourself a man of action and a humanitarian.

HERE is the esthetic invitation to "the Paris of America" which the Cincinnati Enquirer gives to the Wilde weird apostle of the "bootiful." "If Mr. Oscar Wilde will leave his lilies and daffodils and come west, to Cincinnati, we will undertake to show him how to deprive thirty hogs of their intestines in one minute." There you've gut him. Oh, iconoclastic Enquirer!

THE TIMES has no desire to crow over the confusion which is soon to confound the confounded assassin Guiteau, but ventures to gently hint, to settle the question as to what shall be done with his body, that his carcass be delivered over to the ravens. That would afford casw for rejoicing, we're sure.

THE Congressional project to reduce letter postage to two cents will prove popular. Under such a law the postal revenue would of course fall off at first, but the increase in correspondence would ultimately, and probably early, bring them up to the old figures.

AND now there is pending in the Senate a resolution to provide each Senator with a clerk at a $1,200 salary. The clerk may be necessary, but the Senator, not the Government, should pay him.

Hunters report that ducks are lying dead all along the lakes and sloughs about Westonville, poisoned by the farmers, upon whose young grain they forage.

Jack Brush and five other expert forgers were arrested yesterday at Chicago, one of them being taken in the act of passing a check so skillfully raised that the bank officers were unable to say it was bogus.

The Supreme Court of Kansas yesterday decided unconstitutional so much of the Prohibitory Law as prescribes punishment for drunkenness, on the ground that the provision was not expressed in the title of the bill.

The recent cold snap was of sufficient severity to freeze up the Skagit river, W. T., and fill the mouth of the stream with ice that a stern-wheel steamer could not work her way through it, even after backing and breaking the ice with her wheel.

The Hair.

Ammonia should not be used on the hair; it injures the gloss and softness, causing the hair to become soft and dry. The best way to cleanse the hair and keep the scalp healthy is to beat a fresh egg and rub it well into the hair, or if more convenient, rub it well into the hair without beating. Rub the egg in until a lather is formed; occasionally wet the hands in warm water, softened with borax; by the time the lather is formed the scalp is clean; then rinse the egg all off in a basin of water containing a tablespoonful of powdered borax; after that, rinse in one of clear warm water.

Smith, the restaurant man, says he has had a hundred different kinds of strange propositions made to him by fellows trying to secure a meal on some pretense or other without paying for it, but the last one beats all. One of his guests was accosted by one of the genus "tramps" as follows, when leaving the supper table: "Say, mister, swap hats with me and I will take a square meal to make it even." The tramp had the best hat of the two and apparently knew how to make a bargain.

A gentleman informs the People's Cause of the poor condition of stock in the Cottonwood country, Tehama county, and says that both cattle and sheep are very poor, and unless the cold snap terminates soon there will be considerable loss of stock on account of short feed.

LOS ANGELES DAILY TIMES.

ABOUT TOWN

A new comer from Topeka, Kansas, is looking around town for a location to start a grocery store.

The Indian sign of rain is good this morning—that is at this writing, 3 A. M.—for it is pouring down in the middle and is almighty dark around the corners.

The Printers' Coffee House at 26 Commercial street, was opened yesterday, and is under full headway with a new patent coffeepot that makes the San Francisco printers coffee.

The question has been asked: Is there a postmaster in Los Angeles? From an affidavit in our advertising columns there certainly must be a postoffice, and not less than five clerks.

Two drunks and two disturbers of the public peace were yanked into the city jail by the police yesterday. They probably guessed that it would rain during the night.

Miss Adele Allison, a young lady who has been visiting the Barclays of this city, died yesterday at their residence. The remains will be taken back to her old home, by her father and mother, who came out and were with her at the last.

Gov. Downey remarked to a TIMES reporter on the fourth of January last that he wouldn't give up that this would be a dry season until after the 10th of February, and now on the very evening of the day set the welcome rain has come. All hail to the new prophet!

It would be well for the thieves who have recently stolen considerable wood from parties living north of Temple street, near Canal, to look a leedle oud, as they have been watched and it is known where the wood goes to. People who deliberately educate their children in crime should not be permitted to retain them.

On Thursday evening Chamberlain & Vic's team with single-trees attached, started down Spring street at a terrible rate, knocking a man down in their mad career and bruising him severely. They continued their furious speed along Main street, but were fortunately stopped in front of Ferguson & Rose's stables without doing any further damage.

By announcement elsewhere it will be seen that Confidence Engine Company No. 2, of the fire department, will hold a grand entertainment and ball at Turnverein Hall, on the night of February 22d—Washington's birthday. The boys are faithful to the interests of the city to an unusual degree, and deserve the most liberal patronage possible. It is to be hoped that the hall will be filled to overflowing.

A gentleman, just arrived from San Francisco, is negotiating for property with the view of starting a first class coffee and spice mill. He understands the business thoroughly and possesses ample means with which to make it a successful enterprise. Los Angeles is, without exaggeration, the best field for a manufactory of the kind in California, and there is money in it for any man possessing the necessary qualifications.

Mr. John Schumacher will commence at once the erection of a brick building 25x90 feet on his Spring street property, opposite the postoffice, to be occupied as a first-class grocery store by Mr. J. D. Burch, of Ventura, who has secured a five years' lease of the premises. Mr. Burch is the gentleman mentioned in the TIMES a few weeks since as having offered Mr. Schumacher $100 per month on a year's lease, if he would provide him a store room.

PERSONAL MENTION.

Mr. Charles P. Jillson, for a long time past painter in Dotter & Bradley's manufacturing department, will start a carriage painting shop for himself next Monday on Aliso street, over B. Hayman's wagon manufactory.

T. C. Hull, the Postmaster and enterprising merchant at Westminister, was in town and stopped among the angels last night. He reports everything in a satisfactory condition at Westminister.

L. H. Pierce, ex-Sheriff of Lincoln county, Illinois, will arrive in this city this morning from his Eastern home. He will visit here for a time, and possibly make this his future home.

Miss Winn, a teacher in the schools of San Francisco for several years past, is engaged in selling the Life of Garfield in this city. It is a work of merit and should be in every household.

Mr. Edward Lucas, one of the most prominent and respected citizens of Duarte, died on February 4th of consumption, after a lingering and painful illness.

H. N. Short, of Santa Ana, looked in to see how the TIMES was yesterday.

PROF. SAVARIEJ.

A Warning to the Hoodlums—A Case for the Police.

Prof. Savaraiej was busy exhibiting a picture to a crowd yesterday and was rudely interrupted by a well dressed young fellow. Savariej started after him furiously with a mop stick. For a few moments it was a case of nip and tuck which would beat. Finally the young fellow jumped up on the seat of Grover's transfer wagon and started off, thus saving himself from a sound pounding. It is a common and disgraceful scene to see this poor demented man chasing boys and almost grown men around the streets, because every smart Aleck, knowing no better, delight in persecuting him. It should be stopped. He is perfectly harmless if let alone, but when angered by the petty and continuous annoyances to which he is subjected he becomes fierce, and it will devolve upon the TIMES sooner or later to chronicle a serious affair in connection wish him if the persecutions are not stopped. Let the police look after the hoodlums.

A SUDDEN DEATH.

The Coroner and a Jury in a Quandary.

Yesterday morning a girl named Guadalupe Garcia died very suddenly at a lodging house near the depot. In the afternoon the Coroner, Dr. Nadeau, swore in a jury to try the case, but by five o'clock it became evident that the case would be a serious one, and that it would be necessary to hold an autopsy, so the investigation was postponed until 9 o'clock this morning. The full particulars of the case will be found in to-morrow's TIMES.

MASQUERADE.

This evening the grand masquerade ball of the Turnverein Germania will take place at Turnverein Hall. Everyone who has ever attended one of these balls will be glad to go again. The Germans, as a people, go in for having a good time and always succeed when they turn themselves loose. The grand march will begin at eight o'clock.

Bundy in Town Again, but Don't Want to Hunt Snipe—A Big Hunt by the Sporting Club—Notes, Etc.

Bundy returned to his first California love day before yesterday. His lordship has been doing the grand out near Santa Ana. He has been having a fine time hunting in that neighborhood, and says that it beats snipe hunting all hollow. The sporting fraternity have had a good time during the past week speculating on the chances of a dry season, and what effect it will have on hunting in the foot hills and mountains. The Los Angeles Sportsman's Club have been making

PREPARATIONS

All week for a grand hunt. They will start out this morning and be gone for three or four days. About forty members will take a hand, divided into two parties, with a captain each. One of the strange conditions of the hunt is that the division shooting the smallest number of birds or other game, will have to put up for a grand banquet on the return of the company to town. The boys are crack shots and will be sure to have a grand time.

A NEW CLUB.

The Ivy Baseball Club was organized the othey day in this city, with the following officers: R. C. A. Taylor, President; C. G. Compton, Secretary; Ed Whitney, Treasurer; G. S. Turner, Captain; R. Strauss, Vice-President. They will play their first game with the University Club at the University this afternoon at half-past one o'clock.

A baseball game was arranged the other day between the Knicker-bockers and Jim Fisk Clubs, to take place soon.

The Athletic Club is under full headway. The boys are in the gymnasium every evening practicing.

The great fight between Sullivan and Ryan came off at Mississippi City, Mississippi, last Tuesday, Sullivan winning the fight in eight rounds. This was one of the hardest fights that has taken place in the United States for years. Hundreds of sporting men were present from all parts of the country, and a great deal of money changed hands.

NOTES FROM ABROAD.

The small yacht club movement in the East seems to be gaining ground rapidly. The large yachts are so expensive that many who would go yachting are deterred from doing so from the cost. That small yacht club will grow to be one of large dimensions.

The yachtsmen of Poughkeepsi, N. Y., recently had their regatta spoiled by a heavy snowstorm. The craft they intended to sail in the regatta were ice-yachts.

A lady—Miss Tinne—owns the English yacht Eagle.

Santa Cruz boys amuse themselves by spearing salmon from the railroad bridge, near the mouth of the San Lorenzo.

John Hughes has withdrawn his $500 deposit in the Rowell race and concluded not to go to law to recover damages. It seems pretty evident that he is not anxious to meet the little Englishman.

G. A. Dunning, of the Clapham Beagles, England, recently ran 25 miles in 2 hours, 33 minutes and 44 seconds, breaking all the records from 21 to 25 miles inclusive. His style of running is said to be unapproachable. He distanced 14 runners in the race.

The inter state Curling match between New York and New Jersey took place at Hallden, near Paterson, N. J., January 26th. The pond was covered with snow, but a space was cleared away for the rinks. The ice was in fair condition. The match was won by the New Yorker, the score standing 225 to 117 for the New Jersey Club.

O'Leary, the veteran pedestrian, is again arranging a six day race. It will come off at Nashville, Tenn.

Rowell's six day race will come off at Madison Garden, New York, on the 27th instant. The contest will close Saturday, March 4th.

BILLIARDS.

The champion game of billiards between Slosson and Vignaux at Paris has resulted in a victory for the American, the score at the close 2,400 to 2,034 for Vignaux. Slosson was treated well by all save the defeated player. Vignaux is not satisfied with the result, and wants another chance. Slosson is willing to play another match, but in America.

The billiard match between William Sexton and Jacob Schafer for $5,000 will be played at the Academy of Music, New York City, April 25th.

Yank Adams, the champion finger billiardist, is in New York.

The veteran billiardist, Joseph Dion, has many valuable diamonds. William Sexton recently presented him with a costly stud, and a party of his admirers clubbed together and presented him with a valuable diamond ring.

PROPERTY TRANSFERS FOR JANUARY.

An Improvement Over Corresponding Month of Previous Year.

The following statement, prepared by Messrs. Judson, Gillette & Gibson, gives a view of the real estate transactions for the month of January, as shown by the conveyances filed with the County Recorder:

	No.	Amount.
Nominal consideration	54	
Less than $1,000	161	66,642.81
$1,000 or less than $5,000	78	152,542.52
$5,000 or less than $10,000	6	37,735.12
$10,000 or over	4	54,265.36
Total	303	311,185.81

In the corresponding month of 1881, 255 conveyances were filed for record, the aggregate amount of consideration being $357,256.34, but as one conveyance filed in that month was for the amount of $110,000, this month may be considered an improvement over that.

The Athletics.

Louis Brandt, once a resident of this city, and now of San Francisco, is on a paseo among his old friends. Louis is an accomplished athlete, and the performance by him and the boss Los Angeles athlete, Thomas Strohm, at the gymnaseum, night before last, was as good as a circus. Their suppleness and agility is marvelous, and some of the feats of strength and activity almost miraculous.

The Weather Report.

Observations taken by the U. S. Army Signal Service at 8.15 o'clock last night are as follows: Barometer, 30.05; Thermometer, 50; dew point, 38; Wind, E; 9 miles per hour; clear. Maximum thermometer, 55; Minimum thermometer, 41.

WATCH THIEVES.

How Two Pets were Caught by the Officers Yesterday.

Night before last as George Tiffany was walking out of a saloon, about three sheets in the wind, a fellow who had been with him, with the high-sounding name of Larry Loraine, *alias* Tom McDonald, got away with a gold watch belonging to George's mother. Yesterday morning Tiffany learned that he had been robbed, and his father went to the police office for assistance. The Chief had been watching Mr. Loraine, *alias* McDowell, for some time, and hearing that he had been seen with a gold watch, started out to make an investigation. He found the fellow in a den on Los Angeles street, but the woman, Clara Williams, refused to open a trunk in which the officer believed the watch was concealed. A search warrant was procured and the trunk broken open. Now comes the strange part of the story. Everything was taken out, but no watch could be found. A small ladies' hat was thrown out and the Chief noticed that it fell rather heavy. It was picked up, and in the lining was found three or four old socks, one within the other, and the watch carefully placed in the center. This is one of the cutest ways yet heard of for secreting stolen property. Both of the pets were conducted to the city hotel and will have their examination to-day.

Los Angeles Street.

Judge Howard has issued an order notifying all parties interested in the opening of Los Angeles street to appear before him at the Court House next Monday at 11 A. M. to file any objections they may have to the report of the Commissioners. It is to be hoped that all difficulties will be speedily adjusted whereby this much needed improvement can be accomplished without further delay.

Wanted Wood.

Jacob Tupper, an Italian who was arrested a few days ago by Constable Lockwood for stealing wood from the Fruit Factory, was tried before Judge Fisher yesterday morning and convicted. His fine was fixed at ten dollars, which he paid.

MISSOURI STYLE.

How a Judge Talked to a Jury in Santa Monica.

He was from Missouri and he got interested in a criminal trial after he had been there a few days. He sat and watched with the greatest interest possible.

After the judge had instructed the jury and sent them out under the care of the constable to be locked up, he went off to take a walk and give the poor jury time to come to some conclusion.

In about an hour he returned and heard someone making a democratic speech in the jury room. He opened the door and found the old Missourian in the middle of the floor laying down the law and the facts to the jury.

"Here, what are you doing in this room?" cried the court in thundering tones.

"I came in here to see what the jury intended to do, and thought I would help them out a little."

"But you have got no right here. The law strictly forbids anyone to talk to a jury after they have been locked up."

"Now, you see here, stranger, I've been a judge of a justice court in Homing Hill, Jackson County, Missouri, for the past twenty years, and I always helped the jury out. You see they need a good talking to, and I always do it."

But the court couldn't see it and fined him.

FOR SALE,

A ONE HALF INTEREST IN THE

Horne & West

ELECTRO-MAGNETIC BELT.

THIS IS THE same belt which is now manufactured by W. J. Horne, and which he is extensively advertising as the W. J. HORNE BELT. This Belt was invented and patented by myself. Afterward I assigned one half interest in this Belt to W. J. Horne, which he now owns in common with me. This Belt has taken two premiums at State Fairs; but as I have invented another BELT, of double the power of the HORNE & WEST BELT, and much superior to it in every respect, and which I make and sell for ONE HALF the cost of the old Horne & West Belt, I will sell my one-half interest, in the Horne and West Belt cheap for cash. Any person meaning business call at my
